- **businesim** number never expires! *
- One **businesim** card for all over the world for VOICE AND DATA at the same time in one card.*
- No fix payment, No monthly/annual fee, No contractual obligation, No hidden costs.
- Pay only for the real calls and real talking time. Have **detailed ONLINE**, call analysis which you can check **anytime**.
- You never loose the amount which you load on your card even after months or year. *
- With **businesim** you can Divert yr calls Free of charge to any local/mobile number in roam free 125 countries. *
- **Exclusive agreement with Skype**. Skype **to businesim** free of charge calls for the caller, €0.15/min for the receiver of calls.
- **businesim** charge policy is based on your **location** when **calling/receiving calls. ***
- **Privilege** charges when in EU and when calls between **businesim** users**. ***
- Easy balance check. Before and After each call you receive on your screen **your balance**.
- **Easy top-up** through scratch cards or through the web or e-pins.
- Send cheap and receive free SMS worldwide.
- Corporate account for multiple sim control and POOL CHARGE.
- Live interpretation service in more than 100 languages.
- Mobile miles for every minute you use **businesim**
- **businesim** cation.

What is businesim;

businesim is the **perfect worldwide** communication tool

businesim is a prepaid NON VOIP **GSM** sim card for VOICE+DATA at the same time.

businesim is the ideal communication tool for shipping companies, masters of vessels, crew members (their families), technicians, superintendents, inspectors, and generally businessmen who travel and communicate all over the world.

TALK MORE AND PAY LESS.

No more communication with SMS messages. With **businesim** your communication will start to be talking with your colleagues, families without thinking the cost anymore.

-Our system operates in 197 countries based on an innovative patent valid for 25 years. We have (440) agreements with local providers of each country.

-**businesim** is **ROAM FREE card** in 125 countries. Meaning that you will be replying to incoming calls without any charge. You will be surfing on internet or receiving/sending emails/data and charged only based on our roam free regular rates.

businesim number – one sim card for all over the world

We suggest you to introduce your businesim number to all yr colleagues and business partners because this is the international number which you be using from now on and for all your life. Because never expires and works all over the world in 197 countries.

So forget purchasing local cards (with a new number each time that no one knows) each time you travel in order to have cheap calls.

You are granted this advantage with no fix payment, no monthly or annual fees, no contractual obligation and one more very important issue : no hidden charges for you or those who call you.

Pay only for real calls/real talking time or data consumption. You can check that through live and detailed call/data analysis ON LINE any time. In addition each time prior and after your calls **you will see the current balance on your screen**.

All these at a cost of only €18 for the businesim card.
We offer it at a package of €50 where €32 of voice/data are included.
For example with €32 in EU you can talk about 168 minutes.

Location based charges / no expiration of amounts loaded

businesim charge policy differs from all other local service providers like, vodaphone, wind, orange etc.

businesim charge rates are based on the location of the businesim during calling or receiving a call. Therefore, if you will take a look to our businesim rate page the countries on the left side indicate NOT where you call to, but **where you are located at the time of your call.**

No expiration of the amounts loaded in your businesim

The amounts loaded on businesim cards do not expire. If you load €50 prior to departing for your trip and consume only €20, the balance remains in your card to be consumed whenever you will be using it again. You do not loose the amount which is in your businesim not consumed. As advised before you will see your balance on the screen of you Mobile after you end the call.

businesim type of rates

No complex scenarios, of different rates for calls towards mobile phones landlines of each country,etc.

Each time you visit a different country you need to remember only the following:

1/ if you are in one of 125 roam free countries (USA, EU, China and others), no charge for incoming calls, no roaming charges for GPRS/data charges.
***Take a look at the rate of that location. (lets see the rates again).

2/ **businesim** to **businesim** and **businesim** calls in EU only €0.19/min.
(**businesim** charges apply per second in EU after the first 30 seconds)

This is all what you have to remember.

Skype to businesim

businesim and Skype have forged a unique partnership in order to provide free calls from **Skype to businesim** numbers, for you and your clients. We are not referring to skype to skype in your mobile, but Skype to your mobile number without charging data.

When this feature is activated, Skype users can call businesim numbers for free, using special dialing format: +372800XXXXXXXX.

The cost of incoming Skype call for businesim user, is at 0.15 EUR per minute in 125 countries.

In case businesim user is in the country out of the 125 (roam free countries) additional incoming call charges apply.

Webcalls to businesim

We are happy to announce a breakthrough development for all businesim clients. Webcall will change the way family and colleagues can reach businesim users.

Depending on your requirements this facility provide the businesim users opportunity for:

- free calls from website to customer support
- free calls from website to all businesim numbers who allow web calls
- combining two described options.

Calls from Webcall to customer support are **free of charge.**

Calls from Webcall to businesim numbers are **free** for the caller and are **charged** for businesim user. The cost of incoming web call for businesim user is per minute rate of incoming call in the host country plus **0.15EUR** per minute. In case businesim user is in one of the ROAM FREE countries (free incoming calls), the cost will be just 0.15EUR per minute.

Call forward
Divert your calls to your local or mobile number

Having a **businesim** number, makes your life easier for your international communication. Now all your international colleagues know your permanent international number. Because they can find you by calling to your **businesim** permanent number no matter where you are.

When you return back home we provide you another useful service free of charge if your home land is one of the ROAM FREE 125 countries.

You can divert your **businesim** number to your home/office/mobile number free of charge. That is to say that you will be replying from your local mobile number if anyone calls you to your **businesim** number **without any charge!!!** You can have the mobile with **businesim** card ON or OFF at your choice.

In case however the call is diverted to a number of the country listed in **businesim** standard retail Extra rates, user will be charged on per minute basis for incoming calls.

Gprs/3G – MMS.

GPRS/3G

businesim is one of the first mobile prepaid services that offered VOICE and GPRS availability at the same time in one sim card!

MMS

MMS messages between businesim cards are **FREE of charge**. User will be charged the data rate only, no charge will be taken for the MMS itself. For now only users with businesim cards can exchange MMS messages between one another.

16.20€ inlcuding 7€ free value

businesim Automatic Recharge

There are various ways to load your **businesim card:**

- **Through website , Through scratch cards, through prepaid e-pins, or by creating a pool.**

1. Thought website you can make all the purchases, and you can choose the amount you wish to top up your **businesim cards.**

2. Or Through website again you can purchase scratch cards which after you can provide to any of your crew members before they depart or on board by master.

3. Or you can purchase e-pins (which are actually codes) which you can send/provide by sms to your staff upon their request any time and upon they put this pin to their card automatically will have loaded their businesim cards.

This feature is created especially for the companies that have more than one employee who make calls and spend data during their trips.

Businesim Pool

The corporate account provides companies with the ability to create one pool for all the **businesim** numbers. Based on that, each card will be automatically charged from the existing pool according to the call/data usage. The pool gives amount only to those who call/use data.

In addition the administrator will be able to : charge, pre-set limits on how much both the company as a whole and individual employees can spend on international mobile communication/data different for each **businesim**. Administrator can set a for each **businesim number a** min level which when reached will be toped up automatically, set: a top up amount which will be added as soon as the card reach the minimum level, and a max amount per month.

Also the administrator is able to follow control all the **businesim cards from one account and check live the consumption of each card which time and date the amount spend talking to which number.**

This feature is created especially for the companies that have more than one employee who make calls and spend data during their trips.

Unlike standard mobile communications who send invoices only upon all calls were made, **businesim** corporate account feature allows companies to know exactly how much is spent on their mobile communication in real time.

Businesim Free Support

We are happy to deliver superb news about calls to our Support Line. The 3 first minutes of each call from a **businesim** number to **businesim** customer care/support are free of charge.

That is to say that with zero in your **businesim** card you can still call our customer service for technical or other advise**.**

Regular rates apply starting from the 4th minute of the call.

Even if you run out of airtime you can reach our customer/support line!.

businesim Interpretation service

Language Interpretation Services are supported by a network of almost 2000 qualified, tested and professionally trained interpreters available to be connected within seconds. **We offer this service in more than 100 languages, 24/7/365 .**

This is a truly revolutionary service, from which everyone can benefit ,from business executives looking to make a crucial deal, to the leisure traveler wanting to order a special meal!

Information about the Interpreters:

All of our Interpreters are bilingual/bicultural professionals trained to perform complex tasks: listen to the speaker, analyze a message in its entirety, and then interpret the message to another language while preserving the characteristics of form and substance inherent in another culture.

- Interpreters are trained in customer specific terminology
- Every interpreter signs a confidentiality agreement

businesim Personal Assistant

Personal Assistant - your reliable partner. Any time, in any situation, anywhere in the world. 24/7/365 help is just a phone call away.

"Personal Assistant" is available all your users **24 hours a day, 365 days a year**, worldwide and includes concierge services, business services, medical services and assistance in emergency situations, as well as interpretation services in more than 90 languages.

About “Personal assistant”

"Personal Assistant" is ready to help with any routine or emergency problem: providing any background information, performing small tasks, even organization of all-inclusive services on behalf of a client.

During leisure or business trip "Personal Assistant" will help clients in all key aspects of the trip

- Information about countries, visas, vaccination, safety, hotels, transport
- Reservation of a hotel, flight or train ticket, renting a car
- Information about any sports or cultural events, buying tickets, booking a table in a restaurant, calling taxi.
- And other services

Fax to businesim

This feature is part of businesim Voicemail and allows to receive faxes to businesim number. Thus, you can choose between receiving voice messages (current version) or receiving faxes.

Cost
The feature Fax to businesim is offered to you free of charge.

How it works
When Fax to businesim is activated, receiving of a fax is initiated in the same way as voicemail:

- if businesim is out of coverage or turned off,
- if customer rejects the call.

businesim Local Numbers

•The unique advantage of businesim is that in addition to our primary numbers with +372 country code, we provide a variety of local numbers.

•**Permanent Local numbers – now in USA and UK and in other countries**

•Local toll-free numbers help callers in the home countries to reach businesim users without dialing the businesim number but a local dedicated number for which the caller will be charged local rate as per country local charges.

•**How it works:**

•businesim card holders can accept calls/text messages at businesim number worldwide. The cost of incoming call onto your businesim number is per minute rate of incoming call in the host country plus 0.15EUR per minute. In case you are in the country with free incoming calls, the cost will be just 0.15EUR per minute.

•*** New application - Special Uk Number**

•We also provide a local Uk number which is free of charge for incoming calls however apply only USA, Canada, Puerto Rico or Mexico.

businesim Conference Service

In the context of the service businesim client has an opportunity to organize the conference call by dialing the +372993 number. Simultaneous number of allowed participants including businesim user is limited to 10.

Businesim user who organizes the conference pays for all the calls made within the conference call, where the rates are applied based on each call to each participant.

businesim M2M service

- **We would like to introduce a new service called Machine 2 Machine (M2M).** At a glance, M2M communications are made possible by a device (such as asensor, for example) that is attached to a machine to obtain an event that is relayed over a network sending data to applications. These sensors include a Sim card that is able to receive and transmit the event data wirelessly to a central server. businesim would like to bring this service to you and we hope that it will serve your best interests and help your clients. Therefore we have created service packages that will address your client's needs. **Who is it for?**
- • Courier and delivery companies • Passenger and cargo transport • Car rental agencies • any type of service that requires monitoring and reporting without involvement of

  personnel
